## ABOUT ME

Robotics innovator versed in independent and team-based projects to enhance research, design, development and testing of robotic systems. Experienced in completing complex calculations and reviewing designs. Excellent resilience, resourcefulness and data analytics skills useful in code debugging and project management.

## EDUCATION

### Delhi Public School, Kamptee Rd, Nagpur

2008 - 2020 | Primary, Elementary and Secondary Education

### Shri Ramdeobaba College of Engineering and Management, Nagpur

2020 - 2024 | B.E. in Computer Science Engineering (AIML)

## EXPERIENCE

### 2017 ROBOCON 2017 (Finalist)

Building and Testing Division

- Developed, deployed and tested prototype systems to assess functionality and feasibility.
- Created applications to meet diverse needs and design requirements.
- Built, configured or tested robots or robotic applications.
- Reviewed or approved designs, calculations or cost estimates.

## SKILLS

Systems Integration  
Programming Expertise  
Teamwork  
Project Management  
Optical Encoding  
Compassion
